HABS No. MO-1736

The Piaget-van Ravenswaay survey photographs, taken in the 1930s and 1940s, had facsimile negatives made in 1985 because of the non-archival condition of the original nitrate and di-acetate base negatives. Unless otherwise noted, the HABS reference photoprint is a contact print from the facsimile negatives.

In cases where no original negative survived, a copy negative was made from an original print. Copy negatives have been noted as such. In these cases, the HABS reference photoprint is a contact print from the copy negative.
